Summary: Your site has 4 critical issues that need immediate attention.

Detailed Analysis

CRITICAL

Meta Description

Issue: Missing meta description

Why It Matters: Without a meta description, Google generates one from your page content—often poorly.

How To Fix: Add a tag with a compelling 150-160 character summary.

Suggestion:

Write a description that includes your keyword and a clear call-to-action.

Score: 0/15 points

CRITICAL

H1 Heading

Issue: Missing H1 tag

Why It Matters: The H1 is your page's main heading. Search engines use it to understand your content's topic.

How To Fix: Add a single H1 tag containing your primary keyword. It should be visible and meaningful.

Suggestion:

Consider using: "RiResume"

Score: 0/20 points

CRITICAL

Internal Links

Current: 0 internal links

Issue: No internal links found

Why It Matters: Internal links help search engines discover your content and understand site structure.

How To Fix: Add contextual links to your other important pages. Aim for 3-5 relevant internal links.

Score: 0/20 points

CRITICAL

Content Quality

Current: 1 words

Issue: Very thin content

Why It Matters: Pages with very little content rarely rank well and provide little value to users.

How To Fix: Add substantial, valuable content. Aim for at least 300+ words for informational pages.

Score: 2/15 points

WARNING

Title Tag

Current: RiResume

Issue: Title too short (8 characters)

Why It Matters: Short titles miss opportunities to include keywords and attract clicks in search results.

How To Fix: Expand your title to 50-60 characters. Include your main keyword and a compelling reason to click.

Suggestion:

Consider: "RiResume | Your Value Proposition Here"

Score: 8/15 points

WARNING

Heading Hierarchy

Current: H1: 0, H2: 0, H3: 0, H4: 0, H5: 0, H6: 0

Issue: Heading issues: missing H1

Why It Matters: Proper heading hierarchy helps search engines understand content structure and improves accessibility.

How To Fix: Use headings in order (H1 → H2 → H3). Don't skip levels. Use only one H1 per page.

Score: 7/15 points

WARNING

External Links

Current: 0 external links

Issue: No external links found

Why It Matters: External links to authoritative sources can improve credibility and provide value to users.

How To Fix: Consider adding relevant external links to authoritative sources when appropriate.

Score: 5/10 points

WARNING

Images

Current: No images found

Issue: No images detected on page

Why It Matters: Images improve engagement and can rank in image search, driving additional traffic.

How To Fix: Add relevant, high-quality images with descriptive alt text.

Score: 15/20 points

WARNING

Schema Markup

Current: No structured data found

Issue: Missing structured data

Why It Matters: Schema markup helps search engines understand your content and can enable rich snippets in search results.

How To Fix: Add JSON-LD schema for Organization, WebSite, or relevant content type.

Score: 0/10 points

WARNING

Open Graph Tags

Current: No Open Graph tags found

Issue: Missing Open Graph tags

Why It Matters: Open Graph tags control how your content appears when shared on social media.

How To Fix: Add og:title, og:description, og:image, and og:type meta tags.

Suggestion:

Score: 0/10 points

WARNING

Twitter Cards

Current: No Twitter Card tags found

Issue: Missing Twitter Card tags

Why It Matters: Twitter Cards make your links stand out in Twitter feeds, increasing engagement.

How To Fix: Add twitter:card, twitter:title, twitter:description, and twitter:image meta tags.

Suggestion:

Score: 0/10 points

WARNING

Canonical URL

Current: No canonical tag found

Issue: Missing canonical URL

Why It Matters: Canonical tags prevent duplicate content issues and tell search engines which version of a page is preferred.

How To Fix: Add to your section.

Suggestion:

Score: 0/10 points

WARNING

Favicon

Current: Formats: ico

Issue: missing Apple touch icon; consider adding PNG or SVG format

Why It Matters: Complete favicon setup ensures your brand appears correctly across all devices and platforms.

How To Fix: Add Apple touch icon and consider modern formats like PNG and SVG for better display.

Score: 3/5 points

WARNING
